APPROVAL OF STATE ENGINEER
source as heretofore granted under Permit 34297 is issued subject to the terms and conditions imposed in said Permit 34297 and with the u nderstanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.  No perforations shall be put in the production casing from ground level to 100 feet.  The place of use of this permit is limited to 8.193 acres.
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not
to exceed 0.129  to exceed 0.129  duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources, and not to exceed a yearly to exceed an annual duty of 32.77 acre-feet.
Work must be prosecuted with reasonable diligence and be completed on or before January 14, 1985
Proof of completion of work shall be filed before
Application of water to beneficial use shall be made on or before
Proof of the application of water to beneficial use shall be filed on or before February 14, 1986
Map in support of proof of beneficial use shall be filed on or before
